Jopi

Jopi – try for free the end year 2023 and next year 2024 for the half price-TERMS OF USE

Jopi – try for free the end year 2023 and next year 2024 for the half price-TERMS OF USE /valid until further notice)

- The total size of documents can be max 100 Mb during the trial (1.10 – 31.12.2023 and also after that until other wise informed).
- The number of users per organization during trial can be max ten persons.
- You use the system 'As it is' and at your own risk.
- Each user person/organization is fully responsible for the information they upload to the system and must be sure that they have the right to use information, images, videos, documents and undertakes not to upload material that infringes the rights of a third party.
- We do not accept any kind of offensive or illegal material, such as violent videos, pictures, etc., and we will remove the above material and close the user's 'user account' immediately after discovering the above matter.
- For intentional harm, to others or to us and/or our system, we will file a criminal report with the police.
- We try to keep the system running around the clock, but we do not guarantee any percentage of availability. We reserve the right to carry out necessary maintenance measures related to the service at any time, but we try to do them in the evenings and/or weekends if necessary.
- We are not responsible for the possible loss of any data or any direct or indirect harm to your business or in any other way.
- Trial use or other use of the Jopi system and any improvement suggestions you may suggest in any form do not give you and/or your organization any and/or rights of any kind to the Jopi system. You understand that you can propose improvements etc. to the Jopi system without receiving any compensation.
- We are happy to receive constructive feedback and development suggestions regarding the functionality and usefulness of the system and how it could even better meet the various needs of maintenance work..
